

MEMORANDUM FOR: Project Communications Officer 2 May 1956

SUBJECT : TWX Facility for Eastman Kodak

REFERENCE : Memorandum for Project Communications Offr,
from Project Director, dated 2 May 1956,
(SAPC-5870)

1. I have signed the attached request that you arrange for a TWX at Eastman Kodak Company but I have done so on the understanding that this will not unduly aggravate the already serious shortage of cryptographers.

2. I understand it is proposed that your division train Eastman personnel to perform the necessary cryptographic functions. If I am wrong and this requirement will cause your office unusual difficulty, please advise me.

RICHARD M. BISSELL, JR.
Project Director
